Who is this journey for?

- **Late Teens** who want to discover your interests and passions, plus create a testing ground for wealth creation opportunities.
- **Young Adults** who have opportunities to pursue different avenues and want to see which path can fast track your wealth creation success.

What is the journey experience?

Our philosophy is to provide bite size, guided, practical learning in a directed way that leads to developing concrete, implementable action plans.

Initial articulation of goals. At launch, we hold a 1-on-1 session with you to help you articulate your challenges and turn them into a list of solvable, prioritized problems. You select one problem to address. Then focus on developing an action plan for that problem thru the journey.

Insights into personal wealth creation. We send you weekly learning materials. They provide frameworks and case samples to direct your data gathering, analysis, and action plan design. We hold weekly 1-hour dialogues in small groups to review learning highlights, discuss your reflections, guide your action planning, and for the group to share experiences.*

Customized creation of personal action plans. At the end of the journey, we hold a 1-on-1 session with you to polish your action plan and ensure that it can help you achieve concrete goals.

* We would answer any questions on learning materials and provide feedback on self-reflections + action plans in between dialogues
